RESUME

Personal Details

Name: Muhammad Ahmad Hasham
Date & Place of Birth: 01/08/2005, Pakistan
Nationality: Pakistan
CNIC: 31102-3890808-5
Marital Status: Single
Address: House No.6, Main Street , Azeem Garden Town, P/O Hasilpur, Tehsil Hasilpur, District Bahawalpur
Postal Code: 63000
Cell: +923270222414
Email: 241455@students.au.edu.pk | hasham14fw@gmail.com
Github: https://github.com/hasham14fw

Education

BS in Artificial Intelligence – AIR UNIVERSITY, Islamabad (2024–2028)
Semester: 3rd completed
CGPA: 3.19/4.00

Professional Experties:

1. Frontend Development

- **Web Technologies**: HTML5, CSS3, Modern JavaScript (ES6+)
- **Libraries & Frameworks**: React.js, Responsive UI Design

2. Backend & System Architecture

- **Server-Side**: Node.js, Express.js
- **Programming**: Python, C++, JavaScript, C# / .NET 9.0 Core
- **Database Management**: SQL (Relational Datastore), NoSQL (MongoDB Offline & Atlas Cloud Environment), MS Access Database

3. Specialized APIs & Integrations

- **Communications**: Message and Call API (Twilio API Integration)
- **APIs**: Gemini and ChatGPT
- **Application Services**: PDF Generation (iTextSharp), Real-time Data Handling

4. AI-Powered Development & Specialized Tools

- **AI Engineering**: Prompt Engineering Expert, Generative AI Integration
- **Modern Workspace**: VS Code, Google Colab, Antigravity

5. Deployment & Infrastructure

- **Web Management**: Domain Administration, Web Hosting & Server Configuration
- **Performance**: Vite-powered builds, Vercel & Render Deployment

6. Digital Design & Professional Productivity

- **Design Tools**: Figma (UI/UX), Canva (Graphic Design)
- **Office Automation**: Expert proficiency in Microsoft Office Suite (Word, Excel, Power Point)

Working Experience Record:

1. Job Experience

Remote Computer Operator | Landfinder81 (Rawalpindi)
Data management and digital operations for a real estate platform, ensuring high-accuracy data entry and streamlined client communication workflows.
Computer Lab Incharge | Allama Iqbal Public School (M.P.M)
Managed computer laboratory infrastructure, provided technical support for academic software and supervised hands-on computing sessions for students.

2. Technical Showcases:

AIPS Integrated School Portals
A high-performance web architecture (www.aips-hsp.com) supporting thousands of student results, teacher portals, and automated school announcements.
AI - Fake News Verifier
An intelligent platform designed to detect misinformation by analyzing news authenticity using advanced pattern recognition models.(https://fake-news-verifier-rp4i.onrender.com/)
OpenCV AI Attendance System
A computer-vision-based automated attendance model developed to recognize student identity and maintain real-time presence records in educational environments.
Foodlenz - Restaurant Trend Analytics
A specialized review platform that tracks restaurant "trends" and provides personalized dining suggestions based on user-shared experiences and behavioral analytics.
Master Solar Inventory DBMS
A robust accounting and stock management system developed to handle high-volume solar equipment transactions with real-time reporting.
Automated Trading Bot
A data-driven bot engineered for algorithmic trading, utilizing pre-defined strategies to execute orders based on market analytics.

Awards & Professional Recognitions

Project Incharge | Lodhran Pilot Project (LPP)
Funded by UNICEF (https://lpp.org.pk/)
Supervised key educational initiatives and infrastructure management for the LPP, successfully delivering field-level project milestones under UNICEF sponsorship.
Student Voice Leader (Elected 2022)
Student Council Leadership
Democratically elected by the student community to represent academic interests, managing peer communication and student-faculty relations.
Winner: AIR University Debate Championship
AIR University, Islamabad
Recognized for exceptional public speaking and analytical thinking, outperforming peer debaters in city-wide competition rounds.

Mentorship & Public Speaking

Technical Workshop Instructor
AIR University, Islamabad
Delivered **3 highly-rated workshops** focusing on **Modern Web Development Architecture**, providing hands-on training for university cohorts in high-performance web frameworks and UI/UX best practices.
Public Discourse Expert
Cross-Institutional Engagements
Specialist in technical oral talks and academic debates, consistently recognized for the ability to translate complex engineering concepts into high-impact presentations.

Research Interests

- Artificial Intelligence & Machine Learning
- Deep Learning & Neural Networks
- Natural Language Processing (NLP) & Computer Vision
- Robotics & Automation

Languages:

- English
- Urdu

Personal Skills

- **Complex Problem Solving:** Proven ability to decompose intricate technical challenges into scalable, manageable solutions.
- **Logical & Critical Reasoning:** High-level architectural thinking with a focus on data-driven decision-making and efficient system logic.
- **Strategic Research:** Rapidly identifying and assimilating emerging technologies to bridge the gap between AI theory and practical implementation.
- **Cross-Functional Teamwork:** Expertise in collaborating with diverse cohorts (developers, stakeholders, and students) to achieve shared project milestones.
- **Effective Communication:** Skilled in articulating complex technical concepts to non-technical audiences, as demonstrated through workshop delivery and academic talks.
